

Tuberculous Pleural Effusion (A Book of 100 Cases)

Contents

<i>Preface</i>	<i>v</i>
<i>Disclosures</i>	<i>vii</i>
<i>Acknowledgement</i>	<i>ix</i>
1. Tuberculous right sided pleural effusion	1
2. Tuberculous left sided pleural effusion.....	2
3. Tuberculous right sided pleural effusion with pacemaker in-situ.....	3
4. Tuberculous left sided pleural effusion.....	4
5. Pulmonary TB with tuberculous bilateral pleural effusion.....	5
6. Tuberculous right sided pleural effusion	6
7. Tuberculous left sided pleural effusion.....	7
8. Tuberculous left sided pleural effusion.....	8
9. Tuberculous right sided pleural effusion	9
10. Tuberculous right sided pleural effusion	10
11. Tuberculous left sided pleural effusion.....	11
12. Tuberculous left sided pleural effusion.....	12
13. Tuberculous bilateral pleural effusion	13
14. Tuberculous right sided pleural effusion	14
15. Tuberculous left sided pleural effusion.....	15
16. Tuberculous right sided pleural effusion	16
17. Pulmonary TB with tuberculous right sided pleural effusion.....	17
18. Tuberculous left sided pleural effusion.....	18
19. Tuberculous right sided pleural effusion	19
20. Tuberculous left sided pleural effusion.....	20
21. Tuberculous right sided pleural effusion	21
22. Tuberculous right sided pleural effusion	22

23.	Tuberculous right sided pleural effusion	23
24.	Pulmonary TB with tuberculous right sided pleural effusion.....	24
25.	Tuberculous left sided pleural effusion.....	25
26.	Tuberculous right sided pleural effusion	26
27.	Tuberculous bilateral pleural effusion	27
28.	Tuberculous left sided pleural effusion.....	28
29.	Tuberculous right sided pleural effusion	29
30.	Tuberculous right sided pleural effusion	30
31.	Tuberculous bilateral pleural effusion	31
32.	Tuberculous right sided pleural effusion	32
33.	Pulmonary TB with tuberculous right sided pleural effusion.....	33
34.	Tuberculous left sided pleural effusion.....	34
35.	Pulmonary TB with tuberculous right sided pleural effusion.....	35
36.	Tuberculous left sided pleural effusion.....	36
37.	Tuberculous left sided pleural effusion.....	37
38.	Tuberculous left sided pleural effusion with hilar lymphadenitis	38
39.	Tuberculous right sided pleural effusion	39
40.	Tuberculous right sided pleural effusion	40
41.	Tuberculous right sided pleural effusion	41
42.	Pulmonary TB with tuberculous right sided pleural effusion.....	42
43.	Tuberculous left sided pleural effusion.....	43
44.	Pulmonary TB with tuberculous right sided pleural effusion.....	44
45.	Tuberculous right sided pleural effusion	45
46.	Tuberculous left sided pleural effusion.....	46
47.	Tuberculous left sided pleural effusion.....	47
48.	Tuberculous right sided pleural effusion	48
49.	Tuberculous left sided pleural effusion.....	49

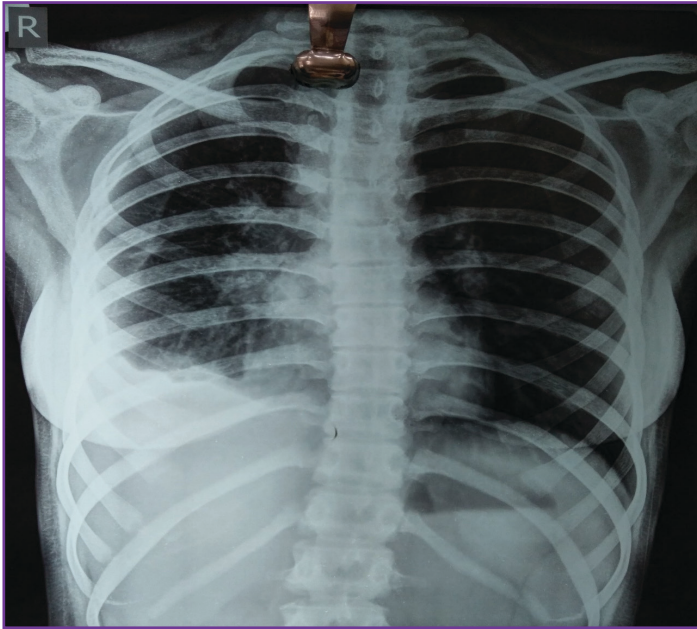

50.	Tuberculous right sided pleural effusion	50
51.	Tuberculous bilateral pleural effusion	51
52.	Tuberculous left sided pleural effusion.....	52
53.	Tuberculous right sided pleural effusion	53
54.	Tuberculous right sided pleural effusion	54
55.	Tuberculous right sided pleural effusion	55
56.	Tuberculous left sided pleural effusion.....	56
57.	Tuberculous left sided pleural effusion.....	57
58.	Tuberculous left sided pleural effusion.....	58
59.	Tuberculous bilateral pleural effusion	59
60.	Tuberculous right sided pleural effusion	60
61.	Tuberculous left sided pleural effusion.....	61
62.	Tuberculous bilateral pleural effusion	62
63.	Pulmonary TB with tuberculous bilateral pleural effusion.....	63
64.	Pulmonary TB with tuberculous bilateral pleural effusion.....	64
65.	Pulmonary TB with tuberculous bilateral pleural effusion.....	65
66.	Pulmonary tuberculosis with tuberculous right-sided pleural effusion .	66
67.	Tuberculous left sided pleural effusion.....	67
68.	Tuberculous right sided pleural effusion	68
69.	Pulmonary TB with tuberculous right sided pleural effusion.....	69
70.	Tuberculous left sided pleural effusion.....	70
71.	Tuberculous right sided pleural effusion	71
72.	Tuberculous left sided pleural effusion	72
73.	Tuberculous right sided pleural effusion	73
74.	Tuberculous left sided pleural effusion.....	74
75.	Tuberculous right sided pleural effusion	75
76.	Tuberculous left sided pleural effusion.....	76

77.	Tuberculous right sided pleural effusion	77
78.	Tuberculous right sided pleural effusion	78
79.	Tuberculous left sided pleural effusion.....	79
80.	Tuberculous left sided pleural effusion.....	80
81.	Pulmonary TB with tuberculous left sided pleural effusion	81
82.	Pulmonary TB with tuberculous right sided pleural effusion.....	82
83.	Tuberculous bilateral pleural effusion	83
84.	Tuberculous right sided pleural effusion	84
85.	Tuberculous right sided pleural effusion	85
86.	Tuberculous right sided pleural effusion	86
87.	Tuberculous left sided pleural effusion with lung collapse	87
88.	Tuberculous right sided pleural effusion	88
89.	Tuberculous right sided pleural effusion	89
90.	Tuberculous left sided pleural effusion.....	90
91.	Tuberculous right sided pleural effusion	91
92.	Tuberculous left sided pleural effusion.....	92
93.	Tuberculous left sided pleural effusion.....	93
94.	Tuberculous left sided pleural effusion.....	94
95.	Miliary TB with tuberculous right sided pleural effusion	95
96.	Tuberculous left sided pleural effusion.....	96
97.	Tuberculous left sided pleural effusion.....	97
98.	Pulmonary TB with tuberculous left sided pleural effusion	98
99.	Tuberculous right sided pleural effusion	99
100.	Tuberculous bilateral pleural effusion	100

Case 1

History- A 15 year's old Indian female presented with fever (evening rise), dry cough, and subjective weight loss for twenty days. No history of TB or any contact.

Chest Radiograph (PA View)

Diagnostic Pleural Tap:

Pleural fluid

Protein- 5.52 g/dL

Glucose- 90 mg/dL

Cytology- Lymphocytes- 91%

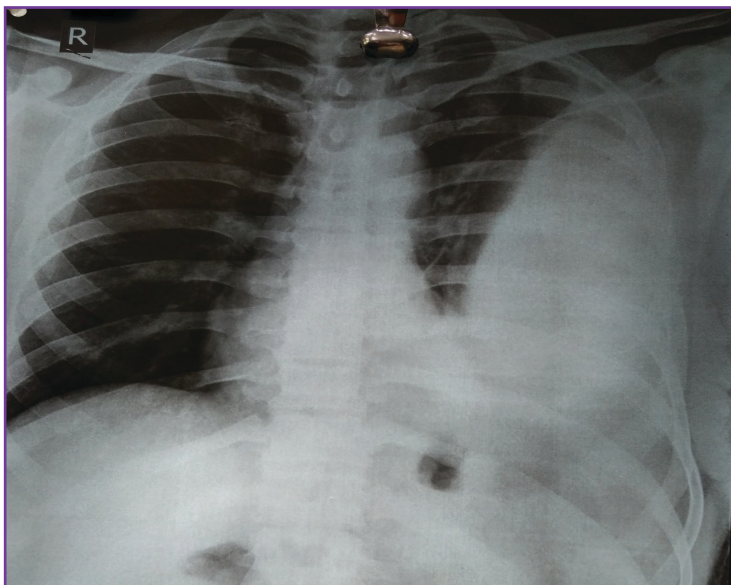

ADA- 42.9 U/L

Final diagnosis- Tuberculous right-sided pleural effusion

Case 2

History- A 27 year's old Indian male presented with fever (evening rise), dry cough, dyspnea at rest, and weight loss for twenty days. No history of TB or any contact.

Chest Radiograph (PA View)

Diagnostic Pleural Tap:

Pleural fluid

Protein- 5.70 g/dL

Glucose- 50 mg/dL

Cytology- Lymphocytes- 82%

ADA- 61 U/L

Final diagnosis- Tuberculous left-sided pleural effusion
