<i>Preface</i> .....	v
<i>Syllabus</i> .....	vii
<b>Chapter 1: Introduction to Human Body</b> .....	<b>1</b>
Introduction.....	1
Organization of Human Body: Cells, Tissues, Organs and Organ Systems .....	1
Basic Life Processes .....	3
Basic Anatomic Terminology.....	4
Basic Cell Structure .....	9
Intercellular Junctions.....	15
Intercellular Communication .....	16
Intracellular Communication .....	17
Cell Division .....	19
Tissues in the Body .....	24
Homeostasis .....	33
Physiological Control Systems .....	37
Body Fluid Compartments.....	38
Summary of Transport Mechanisms .....	45
<b>Chapter 2: The Integumentary Systems</b> .....	<b>46</b>
The Skin.....	46
Body Temperature Regulation .....	49
Skeletal System.....	53
Human Skeleton.....	56
The Joints .....	77
Muscular System.....	84

Physiology of the Skeletal Muscular Contraction .....	87
Mechanism of Skeletal Muscle Contraction .....	89
Smooth Muscle .....	93
<b>Chapter 3: The Blood and Lymph .....</b>	<b>96</b>
Introduction.....	96
Functions of Blood.....	96
Blood Plasma .....	97
Plasma Proteins.....	98
Red Blood Cells .....	101
Blood Groups .....	113
White Blood Cells.....	117
Hemostasis .....	122
Immunity.....	127
The Lymphatic System .....	131
<b>Chapter 4: The Peripheral Nervous System and Special Senses .....</b>	<b>138</b>
Classification of Nervous System .....	138
Peripheral Nervous System.....	139
Autonomic Nervous System .....	147
Special Senses.....	153
The Eye .....	153
Anatomy of the Ear.....	165
Physiology of Hearing .....	169
Sensation of Taste .....	172
Physiology of Taste.....	174

---

---

Sensation of Smell .....	175
Physiology of Smell.....	175
<b>Chapter 5: The Cardiovascular System .....</b>	<b>176</b>
Introduction.....	176
The Heart .....	177
Physiology of the Heart .....	181
The Circulation .....	201
Major Arteries of the Body .....	209
Major Veins of the Body .....	215
Arterial Blood Pressure.....	220
Importance of Normal Blood Pressure .....	225
