• Preface	vii
• Acknowledgement	ix

SECTION 1: Social Medical-Science

1. Adverse Childhood Experiences	3
2. Media Violence	8
3. Homosexuality	12
4. Child Migration	15
5. Child Abuse and Neglect	17
6. Trauma Informed Practice	21
7. Autism Spectrum Disorder	23
8. Homelessness	29
9. Substance Abuse	32
10. Food Insecurity	37
11. School Violence	40
12. Human Trafficking	47
13. Racism	49

SECTION 2: Medical Ethics in Medical Science Education

1. Making a Good Physician	53
2. Physician-Patient Trust	54
3. Teacher-Student Trust	55
4. Entrustable Professional Activities	56
5. Kegan Model of Adult Development	59
6. Clinical Reasoning	62
7. High Value Health-Care	66
8. Social Determinants of Health	69
9. Professional Performance of Physicians	71
10. Shame Culture	72
11. Compassion in Health Care	73
12. Humanism in Health Care	75

13. Autonomy Supportive Approach	76
14. Childhood Trauma and Medical and Mental Health Problems	77
15. Work-Place Violence	79
16. Social Medicine and Medical Ethics.....	81
17. Racially Ambiguous Baby.....	83
18. Healthcare Cost	84
19. Medical Humanities Programs	85
20. Bio-Medical Research Work-Force.....	87
21. The Leads Program.....	88
22. Patient-Centered Health-Care.....	91
23. Learner Resilience	94
24. Burn-Out among Physicians	96
25. Cultural Historical Activity Theory.....	98
26. Empathy in Context of Clinical Practice.....	99
27. Sexual Harrasment in Medicine	101
28. Work-Life Balance for Health Professionals	102
29. Medical Professionalism	105
30. Health-Care Costs Programs.....	107
31. Physician-Patient Boundaries.....	108
32. Ethical Issues in Physicians Fundraising.....	112
33. Remediation of Medical Practitioners.....	117
34. Professional Lapses	118
35. High Value Care in Medicine.....	121
36. Physician Professional Identity Formation.....	123
37. Medical Students with Disabilities	124
38. Incivility in Medical Profession	125
39. Feedback Seeking Behaviour of Post-Graduate Trainees.....	126
40. Physicians Burn-Out and Suicide	128
41. Medicine as a Community of Practice.....	130
42. Continuing Medical Education.....	134
43. Competency based Medical Education	135
44. Aligning Strategic Planning.....	138
45. Medical Teaching Institutes	140
46. Medical Teaching Institute's Affiliated Hospitals	142
47. Disaster Preparedness in Graduate Medical Education Program	145
48. Academic's Brand.....	146

49. Evolution of Clinical Educator	149
50. Climate Change and Health Curriculum in Medical Education.....	150
51. Dialogical Learning in Medical Education	152
52. Experiential Learning.....	155
53. Work-Place Learning.....	156
54. Block-Chain Technology in Health Professions Education	158
55. Assessment of Medical Teaching Institutes	161
56. Sponsorship in Medical Education and Career Advancement	163
57. Context for Medical Education	165
58. Teaching Strategy in Medical Education.....	167
59. Teaching Hospitals.....	170
60. Scholarship in Medical Education	172
61. HIV Training in Medical Education.....	175
62. Curriculum Change in Medical Education	177
63. Organization of Medical Education Curriculum.....	182
64. Collaborative Care.....	184
65. Faculty Development.....	187
66. Organizational System of Educational Program	192
67. Undergraduate Medical Education Curriculum Change.....	198
68. Value Added Activities in Medical Education.....	199
69. Leadership Framework in Medical Education.....	200
70. Social Determinants of Health.....	202
71. Good Governance in Medical Education.....	205
72. Academic Health Centers.....	207
73. Team Based Learning	212
74. Learning Theories.....	215
75. Principles of Online Teaching-Learning Practices	217
76. Online Medical Education Competencies for Faculty	219
