
Contents

<i>Preface</i>	<i>vii</i>
<i>Acknowledgement</i>	<i>ix</i>
1. Carbohydrate Chemistry	1
2. Protein Chemistry.....	7
3. Lipid Chemistry	14
4. Enzymes	21
5. Vitamins	28
6. Minerals.....	34
7. Molecular Biology	40
8. DNA Replication.....	47
9. Transcription	55
10. Recombinate DNA Technology.....	62
11. Antioxidants and Free Radicals	69
12. Hormones	77
13. Cell and their Structure	84
14. Liver Function Tests.....	91
15. Kidney Function Test	98
16. Plasma Proteins	105
17. Water Balance	112
18. Nutrition	119
19. Mutations.....	125
20. Molecular Diagnostics Techniques	133
21. Immunology	140
22. Isotopes in Biochemistry.....	147
23. Cancer	154
24. Xenobiotics	161
25. Electron Transport Chain	167

26. Acid-Base Balance	173
27. Carbohydrate Metabolism	179
28. Lipid Metabolism	185
29. Protein Metabolism	191
30. Extracellular Matrix (ECM)	195
31. Heme Metabolism	199
32. Gene Regulation	203
33. AIDS	210
34. Subcellular Organelles	217
35. Cell Membranes	224
36. Environmental Pollution	231
37. Haemoglobin and Myoglobin Chemistry	238
38. Translation	245
39. Clinical Case-Based Biochemistry MCQs with Explanations	251
40. Exercise- Unsolved MCQs	266
