SECTION 1: Role of Endocrine Glands in Health and Disease

1. Basic Concepts	3
2. Endocrine Regulation	6
3. Endocrine Function Tests	9
4. Endocrine Factors in Growth.....	16
5. Normal Gonadal Growth and Development.....	31
6. Abnormal Gonadal Growth and Development.....	33
7. Puberty.....	41
8. Regulation of Puberty	43
9. Abnormal Pubertal Development.....	45
10. Delayed Puberty.....	52
11. Physiological Factors in Growth and Development.....	55
12. General Factors Affecting Growth and Development.....	59
13. Developmental Assessment.....	63
14. Developmental Delay	69
15. Adolescent Development	75
16. The Thyroid Gland	78
17. The Thymus	88
18. Natural Neurosteroids.....	90
19. Pheochromocytoma and Paraganglioma.....	91
20. Acquired Growth Hormone Deficiency in Adulthood.....	96
21. Adrenal Crisis.....	101
22. Diabetes Insipidus.....	105
23. Parathyroid Hormone Deficiency and Excess	108
24. Hypoparathyroidism.....	111
25. Parathyroid Hormone Resistance	113
26. Hypercalcemia	115
27. Hyperparathyroidism.....	117
28. Hypoglycemia.....	119
29. Neonatal Hypoglycemia.....	121
30. Hypoglycemia in Infancy and Childhood.....	124
31. Obesity	131

32. Hypoaldosteronism	138
33. Hyperaldosteronism	142
34. Diabetic Polyneuropathy.....	144

SECTION 2: Neonatal Disorders

1. Developmental Care of Neonates in Neonatal Intensive Care Unit.....	147
2. Developmental Monitoring of Preterm Neonates	148
3. Neonatal Stroke.....	149
4. Clinics in Neonatology	151
5. Acute Kidney Injury in Neonates.....	195
6. Neonatal Hypoglycemia.....	196
7. Screening for Neonatal Conditions	197
8. Resistive Index.....	200
9. Retinopathy of Prematurity	201
10. Ultrasound Diagnosis of Intraventricular Haemorrhage	205
11. Occipitalization of Atlas	208
12. Methylmalonic Acidemia.....	210
13. Neonatal Sleep	212
14. Holoprosencephaly.....	214
15. Neonatal Diabetes Mellitus	216
16. Therapeutic Hypothermia	217
17. Neonatal Cardiac Conditions.....	220
18. Neonatal Abdominal Defects.....	224
19. Esophageal and Intestinal Atresia and Stenosis in Neonates.....	229
20. Gastric Volvulus.....	231
21. Respiratory Distress in Preterm Neonates.....	232
22. Erythema Toxicum Neonatorum.....	234
23. Staphylococcal Infections in Neonates.....	235
24. Neonatal Sepsis	238
25. Permanent Neonatal Diabetes Mellitus	243
26. Neonatal Leukaemia.....	244
27. Neonatal Necrotising Enterocolitis.....	246
28. Scrotal Abscess	251
29. Bronchopulmonary Dysplasia Prevention.....	253
30. Treatment of Dandy Walker Syndrome with Hydrocephalus	254
31. Parry Romberg Syndrome	256
