<i>Preface</i> .....	v
<i>Syllabus</i> .....	vii

## Section A: Applied Microbiology

<b>Unit 1: Introduction</b> .....	<b>2</b>
1. Introduction and History of Microbiology .....	3
<b>Unit 2: General Characteristics of Microbes</b> .....	<b>8</b>
2. Microscopy and Morphology of Bacteria .....	9
3. Growth, Nutrition and Metabolism of Bacteria–Physiology of Bacteria .....	20
4. Laboratory Diagnosis of Bacterial Infections (Specimen Collection, Identification, Staining, Culture Media, Culture Technique and Anaerobic Cultivation of Bacteria) .....	24
<b>Unit 3: Pathogenic Organisms</b> .....	<b>53</b>
5. Gram Positive Cocci: Staphylococcus, Streptococcus, Pneumococcus, Enterococcus .....	54
6. Gram Negative Cocci (Neisseria meningitidis, Neisseria gonorrhoeae) .....	72
7. Gram Positive Bacilli (Spore Forming and Non-spore Forming) .....	78
8. Mycobacterium tuberculosis and M. leprae .....	101
9. Gram Negative Bacilli – I: Enterobacteriaceae (Escherichia coli, Klebsiella, Proteus, Salmonella, Shigella, Vibrio) .....	120
10. Gram Negative Bacilli – II (Non-Fermenting Bacilli and Miscellaneous GNB) .....	145
11. Spirochaetes: Treponema, Borrelia and Leptospira .....	170
12. Introduction to Medical Virology .....	182
13. Herpesviruses and Other DNA Viruses .....	196
14. Orthomyxoviruses and Paramyxoviruses (Influenza, MMR, Coronaviruses, Etc.) .....	213
15. Picornaviruses (Polio Virus) .....	232
16. Rhabdoviruses (Rabies Virus) .....	237
17. Arboviruses (Dengue, Chikungunya, Yellow Fever, Japanese Encephalitis, KFD, Etc.) .....	243
18. Hepatitis Viruses .....	249
19. Human Immunodeficiency Virus (HIV) .....	260
20. Miscellaneous RNA Viruses .....	271
21. Introduction to Medical Mycology .....	280
22. Superficial Mycoses Dermatophytoses (Ringworm or Tinea) .....	285

23. Subcutaneous Mycoses (Mycetoma, Sporotrichosis, Chromoblastomycosis, Rhinosporidiosis).....	291
24. Systemic/Deep Mycoses (Histoplasmosis, Blastomycoses, Paracoccidioidomycosis, Coccidioidomycosis).....	298
25. Opportunistic Mycoses (Candidiasis, Cryptococcosis, Aspergillosis, Zygomycosis, Pneumocystosis, Penicilloisis, Miscellaneous).....	306
26. Introduction to Medical Parasitology.....	321
27. Amoebae – Entamoeba histolytica.....	326
28. Intestinal and Genital Flagellates (Giardia and Trichomonas).....	331
29. Hemoflagellates – Leishmania and Trypanosoma.....	336
30. Malaria Parasite and Babesia.....	347
31. Opportunistic Coccidian Parasites and Others (Toxoplasma, Cryptosporidium, B. coli, Etc.).....	357
32. Cestodes (Taenia, H. nana, Echinococcus, D. latum).....	364
33. Trematodes (Schistosomes, F. buski, F. hepatica, P. westermani).....	378
34. Nematodes.....	389
35. Stool Examination or Diagnostic Procedures.....	413
<b>Unit 4: Immunology.....</b>	<b>426</b>
36. Immunity, Components of Immune System and Immune Response.....	427
37. Antigen, Antibodies (Immunoglobulins) and Complement System.....	452
38. Antigen – Antibody Reactions and Serological Tests.....	466
39. Hypersensitivity.....	481
40. Vaccines and Immunisation Schedule.....	491
<b>Section B: Infection Control and Safety</b>	
<b>Unit 1: Hospital Acquired Infections.....</b>	<b>498</b>
41. Hospital Acquired Infections, Bundle Approach and Surveillance of HAI.....	499
<b>Unit 2: Isolation Precautions and Use of Personal Protective Equipment (PPE).....</b>	<b>506</b>
42. Isolation System, Standard/Transmission Based Precaution and PPE.....	507
43. Epidemiology and Infection Prevention.....	513
<b>Unit 3: Hand Hygiene.....</b>	<b>520</b>
44. Hand Hygiene, Hand Washing, Moments of Hand Hygiene.....	521
<b>Unit 4: Disinfection and Sterilisation.....</b>	<b>525</b>
45. Sterilisation and its Application, Spaulding’s Principle.....	526
<b>Unit 5: Specimen Collection.....</b>	<b>538</b>
46. Specimen Collection – Types, Transport and its Handling.....	539

---

<b>Unit 6: Biomedical Waste Management.....</b>	<b>543</b>
47. Biomedical Waste Management and Laundry Management .....	544
<b>Unit 7: Antibiotic Stewardship .....</b>	<b>550</b>
48. Antibiotic Stewardship, Antimicrobial Resistance and Prevention 551	
<b>Unit 8: Patient Safety Indicators and Incidents .....</b>	<b>559</b>
49. Patient Safety Indicators.....	560
50. Incidents and Adverse Events – RCA, CAPA .....	564
<b>Unit 9: IPSPG (International Patient Safety Goals) .....</b>	<b>567</b>
51. IPSPG and its Application.....	568
<b>Unit 10: Safety Protocol.....</b>	<b>569</b>
52. Various Safety Protocols and its Application .....	570
<b>Unit 11: Employee Safety Indicators.....</b>	<b>580</b>
53. Employee Safety Indicators .....	581
54. HCW Immunisation and Management of Occupational Exposure.....	585
