|------------------------------------------------------------------|------------|
| <i>Foreword</i> .....                                            | <i>vii</i> |
| <i>Preface</i> .....                                             | <i>ix</i>  |
| <i>Theory Syllabus</i> .....                                     | <i>xi</i>  |
| 1. Chemistry of Carbohydrate.....                                | 1          |
| 2. Carbohydrate Metaboilsm.....                                  | 18         |
| 3. Chemistry of Amino Acid and Protein.....                      | 43         |
| 4. Metabolism of Protein.....                                    | 65         |
| 5. Lipid Chemistry .....                                         | 76         |
| 6. Lipid Metabolism.....                                         | 83         |
| 7. Nucleic Acids Chemistry .....                                 | 96         |
| 8. Enzymes.....                                                  | 114        |
| 9. Vitamins .....                                                | 134        |
| 10. Hormones.....                                                | 163        |
| 11. Mineral Metabolism.....                                      | 174        |
| 12. Water and Electrolyte Balance.....                           | 195        |
| 13. Hemoglobin Metabolism .....                                  | 206        |
| 14. Organ Function Tests .....                                   | 218        |
| 15. Biochemical Techniques Instrumentation .....                 | 229        |
| 16. ELISA Plate Reader (Microplate Reader or Assay Reader) ..... | 257        |
| <i>References</i> .....                                          | <i>275</i> |
