Contents

Preface ..... *xxiii*

Acknowledgement ..... *xxv*

1. Twenty Five Years of Cord Blood Transplant 1
2. Stem Cell Biology: Definitions and Concepts 10
3. Mesenchymal Stromal Cells and Growth Factors 17
4. Role of Laboratory in Stem Cell Transplantation 26
5. Flowcytometry in Cord Blood Banking and Transplantation 37
6. Transfusion Support in Stem Cell Transplantation 50
7. Umbilical Cord Blood Collection, Processing, Storage and Distribution of Stems Cells 58
8. Haematopoietic Stem Cell Transplantation in India: Lookingover the Horizon 82
9. Allogeneic Stem Cell Transplantation: AIIMS Experience 87
10. Multiple Myeloma: Autologous Stem Cell Transplantation 93
11. Stem Cells in Neurological Diseases 111
12. Stem Cells in Hepatic Disorders 117
13. Stem Cells in Ophthalmology 127
14. Stem Cells in Otolaryngology 138
15. Stem Cell in Arthritis 157
16. Stem Cells in Vascular Medicine 169
17. The Experience of Using Umbilical Cord Blood Stem Cells in India 177

18. Cord Blood Banking and Transplantation in India 184

19. Sibling Transplants for Thalassemia Emerge as The Leading Allogeneic Therapy from Cord Blood in Family Banks 188

20. Stem Cells Transplantation in The Armed Forces..... 193

21. Family Cord Blood Banking..... 202

22. Public Cord Blood Banking in India..... 204

23. Cord Blood Banking and Transplantation: Current Concepts and Future Horizons..... 223

24. Accreditation in Cord Blood Banking 228

25. FACT Accreditation in Cellular Therapy and Cord Blood Banking..... 235

26. Software in Cord Blood Banking and Transplantation 245

27. Equipment for Setting Up of a Cord Blood Bank..... 254

28. Haematopoietic Stem Cell Transplantation: The Answer to Thalassaemia and Sickle Cell Anemia..... 269

29. Regenerative Medicine, Cellular Therapy and Tissue Engineering Current Scenario..... 276

30. Stem Cells in Dermatology 281

31. Stem Cells in Dentistry..... 290

32. Stem Cells in Regenerative Medicine..... 306
