

Contents

Introduction	1
Chapter One: Nervous System	4
1. Nervous System	4
2. Cells of Nervous System.....	17
3. Blood Vessels in the Brain	24
4. Impulse Transmission	24
Chapter Two: Paracetamol Uses and Mechanism of Action	26
1. Preparation of Paracetamol	26
2. Paracetamol Availability in Market.....	28
3. Paracetamol Usage.....	30
4. Paracetamol Metabolism.....	37
5. Pharmacodynamics	39
6. Paracetamol Mechanism of Action	41
7. Drug-Drug Interactions	57
Chapter Three: Paracetamol Adversity	59
1. Renal Impairment.....	59
2. Asthma	62
3. Cardiovascular Illnesses.....	65
4. Hepatotoxicity.....	76
5. Gastrointestinal Effects	85
6. Endocrine and Reproductive Toxicity.....	88
7. Preeclampsia	93
8. Neurodevelopmental Episodes.....	95
9. Congenital Malformations	100
10. Methemoglobinemia	102
11. Cataract Formation.....	104
12. Paracetamol Hypersensitivity Reactions.....	105
13. Changes in Coagulation	114
14. Monitoring	116
Glossary	118
