

# Basics of Immunology

## Contents

<b>Chapter 1- Introduction to Immunology .....</b>	<b>1</b>
» Introduction	
» Historical Perspective	
» Innate and Acquired Immune Responses	
» Innate Immune System	
» Acquired Immune Response	
» Various Elements of Immune System	
» Inflammation	
» Extracellular and Intracellular Infection	
» Vaccination	
<b>Chapter 2- Innate Immune System .....</b>	<b>20</b>
» Physical Barriers of Innate Immunity	
» Cell Types of Innate Immune System	
a. Neutrophils	
b. Basophils	
c. Eosinophils	
d. Monocytes and Macrophages	
e. Dendritic Cells	
» Innate Immune Response	
» Inflammation	
» Complement System	
a. Classical Pathway	
b. Alternate Pathway	
c. Mannose Binding Lectin Pathway	
d. Lytic Pathway	
<b>Chapter 3- Adaptive Immune System .....</b>	<b>38</b>
» Cells of Adaptive Immune Response	
a. Lymphocytes	
b. B Lymphocytes	
c. T Lymphocytes	

- » Antigen And Antibody
  - a. Antigen
  - b. Antibodies including IgA, IgG, IgM, IgE, IgD.
- » Major Histocompatibility Complex (MHC) Molecules
  - a. MHC Class I
  - b. MHC Class II
- » Cytokines
  - a. Cytokine Receptors
    - i. Type I Cytokine Receptors
    - ii. Type II Cytokine Receptors
    - iii. Immunoglobulin Superfamily Receptors
    - iv. Tumour Necrosis Factor Receptors
    - v. Chemokine Receptors
    - vi. Transforming Growth Factor Beta Receptors
  - b. Cytokines of Innate Immunity
  - c. Cytokines of Adaptive Immunity
- » Cluster Differentiation Molecules
- » Humoral Response
  - a. Cell Activation
  - b. B cell Activation by T Helper Cells
  - c. Antigen Induced B Cell Differentiation in Germinal Cells
- » Cell Mediated Immunity
  - a. CTL Mediated Response
  - b. T-Cell Mediated Response in Cell Mediated Immunity
  - c. Generation of Effector CTLs, Role of TH Cells
  - d. Altered Cell Killing by CTLs
- » Natural Killer Cells Versus T-Cells

**Chapter 4- Clinical Aspects of Immunology..... 94**

- » Clinical Aspects of Immunology
  - a. Immunodeficiency Diseases
  - b. Autoimmunity
- » Immunodeficiency Disorders Types
- » Primary Immunodeficiency

- a. Lymphoid Immunodeficiency
  - i. Severe Combined Immunodeficiency Disease (SCID)
  - ii. Wiskott-Aldrich Syndrome
  - iii. Interferon-Gamma Receptor Defect
  - iv. X-Linked Agammaglobulinemia(X-LA)
  - v. X- Linked Hyper IgM Syndrome
  - vi. Common Variable Immunodeficiency
  - vii. Hyper IgE Syndrome (HIES)
  - viii. Ataxia Telangiectasia
  - ix. Immune Disorders due to Thymus
- b. Myeloid Immunodeficiency
  - x. Reduction in Neutrophil Count
  - xi. Leucocyte Adhesion Deficiency (LAD)
  - xii. Chediak-Higashi Syndrome
  - xiii. Chronic Glomerulomatus Disease
- » Secondary or Acquired Immunodeficiency
  - a. AIDS including HIV
  - b. Stages
  - c. Clinically Latent Period
  - d. Acquired Immunodeficiency Syndrome Patient
  - e. Therapeutic Intervention
- » Hypersensitivity Reaction
  - a. Type I
  - b. Type II
  - c. Type III
  - d. Type IV

**Chapter 5- Autoimmune Diseases.....115**

- » Pathophysiological Mechanism
- » Systemic Autoimmune Diseases
  - a. Systemic Lupus Erythematosus
  - b. Multiple Sclerosis
  - c. Rheumatoid Arthritis
- » Autoimmune Diseases Mediated by Direct Cellular Damage

- a. Hashimoto's Thyroiditis
- b. Autoimmune Anaemia
- c. Goodpasture Syndrome
- d. Insulin Dependent Diabetes Mellitus
- » Autoimmune Diseases Mediated by Stimulatory or Blocking Autoantibodies
  - a. Grave's Disease
  - b. Myasthenia Gravis

**Chapter 6 Immunology in Medicine ..... 126**

- » Scope of Immunology in Medicine
- » Transplantation
  - a. Graft Transplant and Immunological Basis
    - i. Autograft
    - ii. Isograft
    - iii. Allograft
    - iv. Xenograft
  - b. Tissue Typing including Serology, Mixed Lymphocyte Culture (MLC), Molecular Assays including DNA Based Tissue Typing
- » Vaccination
  - a. Introduction
  - b. Types
    - i. Inactivated Type
    - ii. Attenuated Vaccine
    - iii. Subunit Vaccine
- » Diagnostic Immunology
- » Cancer Immunology
- » Reproductive Immunology

**Chapter 7- Immunology of Cancer..... 138**

**Chapter 8- Immunological Techniques & the Advancements..... 184**

**Chapter 9- Stem Cells in Therapeutic Medicine ..... 238**

**Bibliography ..... 247**

**Index..... 260**
