

Contents

<i>Preface</i>	vii
<i>Acknowledgement</i>	ix

Section 1: Perinatal Pulmonology

1. Teratogenic Medications During Pregnancy	3
2. Prevention of Preterm Birth	6

Section 2: Basic Sciences in Respiratory Medicine

1. Age as a Factor in Respiratory Disease.....	13
2. Physiological and Anatomical Factors	16
3. Growth and Development of Lungs	20
4. Pulmonary Ventilation.....	23
5. Pulmonary Circulation	27
6. Pulmonary Gas Exchange	29
7. Pulmonary Oxygen Transport	32
8. Pulmonary Carbon Dioxide Transport	34
9. Cellular Respiration.....	36
10. Regulation of Respiration	38
11. Disorders of Regulation of Respiration	41
12. Non Respiratory Pulmonary Functions	43
13. Metabolic and Endocrine Functions of Respiratory System	46
14. Metabolic Basis of Pulmonary Diseases	50

Section 3: Clinics in Pulmonology

1. History Taking in Respiratory Medicine	55
2. Clinical Symptoms and Signs	57
3. Clinical Examination of Lungs	74
4. Clinical Diagnostic Procedures	81

Section 4: Pulmonary Physiology

1. Pulmonary Function Tests	87
2. Respiratory Sinus Arrhythmia	92

Section 5: Respiratory Diagnostics

1. Lung Ultrasound.....	97
2. Respiratory Radiology	99

Section 6: Pulmonary Pathology

1. Respiratory Failure	111
2. Pleural Effusion	113
3. Pulmonary Embolism	117
4. Persistent Pulmonary Hypertension	121
5. Pneumothorax.....	123
6. Atelectasis	128
7. Nonobstructive Atelectasis	130
8. Bronchial Obstruction	132
9. Massive Pulmonary Collapse	135
10. Pulmonary Edema	137
11. Bronchiectasis	146
12. Pulmonary Hemorrhage	151

Section 7: Congenital Anomalies of Respiratory Tract

1. Thoracic Wall Deformities	159
2. Pulmonary Hypoplasia Aplasia and Agenesis.....	162
3. Congenital Pulmonary Cysts	164
4. Lobar Emphysema	166
5. Pulmonary Sequestration	168
6. Congenital Cystic Adenomatoid Malformation	170
7. Congenital Chylothorax and Congenital Lymphangiectasis	171
8. Esophageal Atresia and Tracheoesophageal Fistula.....	172
9. Bronchogenic Cyst	175
10. Congenital Diaphragmatic Hernia.....	177
11. Congenital Hiatal Diaphragmatic Hernia	180
12. Eventration of Diaphragm	181
13. Vascular Rings	182
14. Pierre Robin Sequence	184

Section 8: Neonatal Pulmonary Diseases

1. Apnea	187
2. Sudden Infant Death Syndrome	191
3. Transient Tachypnea of Newborn	196
4. Hyaline Membrane Disease	197
5. Congenital Pneumonia	200

6. Meconium Aspiration Pneumonia	201
7. Persistent Pulmonary Hypertension	202
8. Pulmonary Interstitial Emphysema	204
9. Pneumomediastinum and Pneumothorax	205
10. Respiratory Obstruction in Neonates	206
11. Bronchopulmonary Dysplasia	208
12. Wilson Mikity Syndrome	214

Section 9: Hypersensitivity Disorders of Airway

1. Bronchial Asthma	217
2. Exercise Induced Bronchoconstriction	240
3. Hypertensive Asthmatic	243
4. Interstitial Lung Disease	246
5. Idiopathic Pulmonary Fibrosis	249
6. Allergic Airway Disease	251
7. Hypersensitive Pneumonitis	253
8. Allergic Bronchopulmonary Disease	257
9. Pulmonary Alveolar Proteinosis	260

Section 10: Infections of Respiratory System

1. Pulmonary Tuberculosis	263
2. H1N1 Influenza	280
3. Middle East Respiratory Syndrome Corona Virus	285
4. Bronchiolitis	288
5. Bronchiolitis Obliterans	292
6. Community Acquired Pneumonia	294
7. Staphylococcal Pneumonia	296
8. Croup	299
9. Chronic Bronchitis	303
10. Acute Exacerbation of Chronic Bronchitis	305
11. Familial Mediterranean Fever	308
12. Legionnaires Disease	309
13. Lung Abscess	313
14. Empyema	316

Section 11: Hereditary Pulmonary Diseases

1. Pulmonary Arteriovenous Malformation.....	323
2. Cystic Fibrosis.....	325
3. Ciliary Dyskinesia	328

Section 12: Immunological Diseases of Respiratory System

1. Allergic Bronchopulmonary Aspergillosis	333
2. Acute Lung Injury	335
3. Loeffler Syndrome	336
4. Atypical Hemolytic Uremic Syndrome	339
5. Occupational Immunologic Lung Disease	342

Section 13: Pulmonary Obstructive and Restrictive Diseases

1. Classification of Respiratory Disorders.....	347
2. Chronic Obstructive Pulmonary Disease	350
3. Acute Exacerbation of Chronic Obstructive Pulmonary Disease	358
4. Emphysema	361
5. Obstructive Sleep Apnea	363
6. Restrictive Ventilation Disorder	368

Section 14: Recent Advances in Pulmonary Therapeutics

1. Intensive Care in Respiratory Medicine.....	371
2. Mechanical Ventilation	377
3. Respiratory Therapy	380
4. Oxygen Therapy	383
5. Therapy for Phosphine Toxicity	388
6. Nicotine Replacement Therapy for Smoking Cessation	389
7. Advanced Medical Technologies for Cardiopulmonary Resuscitation and Training.....	390
8. Antifungal Therapy	392
9. Antibiotic Therapy	396
10. Allergy Therapy	404
11. Immunosuppressive Therapy	405
12. Pyrazinamide	411
13. Glucocorticoids	413
14. Lipopolysaccharide	418
15. Rett Syndrome	425
16. Small Cell Lung Cancer	427
